MARBLE TREND
EXTRAORDINARY SURFACES

Dry, the cup of ease

Design Enzo Berti

Pure shapes and surfaces blend in the marble element and exalt its sense characteristics.

Dry (named after the typical glass of Martini Dry) is a noble and simple sink, where the pure volume of marble draws shapes and lines.

The insertion of a stone ring all along the upper profile completes the functionality of the object and makes it a design object.

Dry is proposed in 4 marble kinds, always honed and waxed.
On the upper profile the marble ring underlines its shape.

Dry is directed both to Home and Contract.

TECHNICAL INFORMATION

Name: Dry

Design: Enzi Berti

Brief description: Dry (named after the famous glass where Martini Dry is served) is a sink where the pure volume of marble draws shapes and lines.

Proposed Materials:
