LISTONE GIORDANO COLLABORA CON PAOLA LENTI ALL'EVENTO "IN SCENA".

IN OCCASIONE DELLA MILANO DESIGN WEEK 2019, PAOLA LENTI E LISTONE GIORDANO HANNO COLLABORATO PER DARE UNA NUOVA INTERPRETAZIONE A PERIGAL, UN RIVESTIMENTO PAVIMENTALE IN LEGNO DALLA FORTE IMPRONTA INNOVATIVA, PROPOSTO QUEST'ANNO COME ELEMENTO DECORATIVO PER SUPERFICI VERTICALI. PERIGAL È CARATTERIZZATO DA FORME GEOMETRICHE INUSUALI E ACCAREZZATO DA PENNELLATE DI COLORE SORPRENDENTI, CHE LASCIANO VISIBILI LE NATURALI VENATURE DEL MATERIALE. I MODULI GEOMETRICI, SVILUPPATI PER INTERPRETARE LA DIMENSIONE ORIZZONTALE DEL PAVIMENTO, POSSONO ORA ESSERE ANCHE MONTATI A PARETE, PER DIVENTARE UNA SINGOLARE BOISERIE. PERIGAL È FRUTTO DELL'INCONTRO TRA IL RICCO PATRIMONIO DI CONOSCENZA DEL LEGNO DI LISTONE GIORDANO E L'INCONFONDIBILE CIFRA STILISTICA DELL'AZIENDA PAOLA LENTI.

LISTONE GIORDANO WORKS WITH PAOLA LENTI TO STAGE "IN SCENA" EVENT.

ON THE OCCASION OF THE MILANO DESIGN WEEK 2019, PAOLA LENTI AND LISTONE GIORDANO WORKED TOGETHER TO TAKE PERIGAL A STEP FURTHER. THE WOODEN SURFACE WITH A HIGHLY INNOVATIVE MARK, THUS BECOMES A "WALL DECORATION" WITH INIMITABLE FEATURES, AND ITS TRADITIONAL APPEARANCE IS MODIFIED TO TAKE ON A NEW PERSONALITY AND A NEW CHARACTER. THE GEOMETRICAL MODULES MAY EVEN BE INSTALLED ON THE WALL TO TURN INTO UNUSUAL WAINSCOTING AND DYED IN SURPRISINGLY BRIGHT COLOURS - ACQUA, OLIO, OTTANO AND GRAFITE - THAT LEAVE THE NATURAL VEINING OF THE MATERIAL VISIBLE. PERIGAL IS THE FELICITOUS OUTCOME OF THE MEETING BETWEEN THE WEALTH OF EXPERTISE OF LISTONE GIORDANO AND THE UNMISTAKABLE STYLE OF THE PAOLA LENTI FIRM.

PYTHAGORA'S THEOREM DEMONSTRATION

Fig. 1

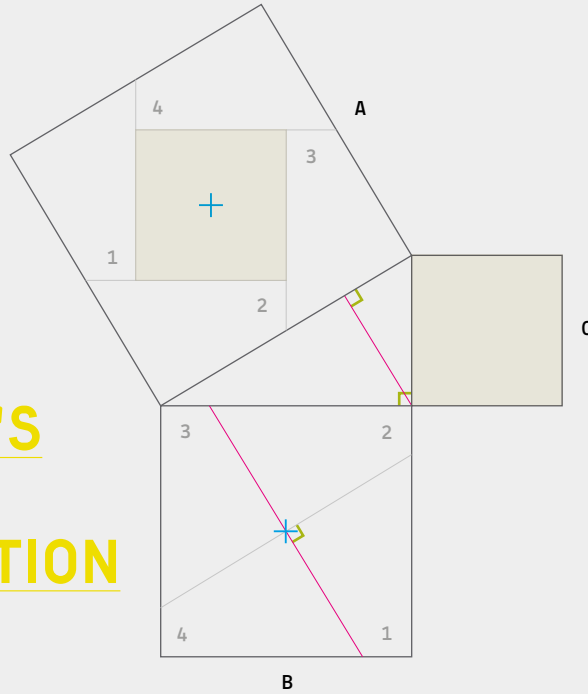

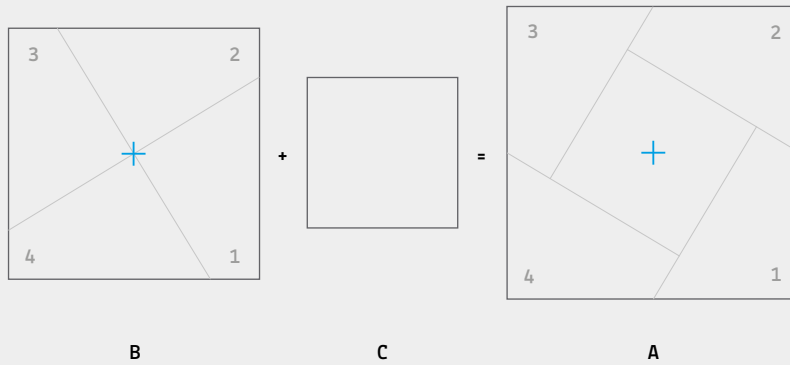

Fig. 2

Henry Perigal

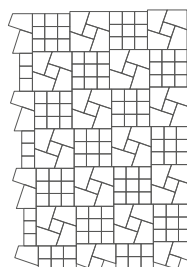

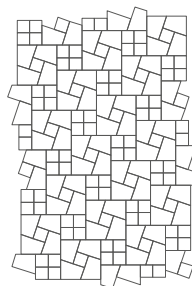

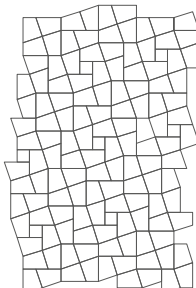

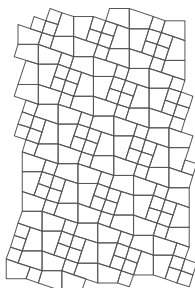

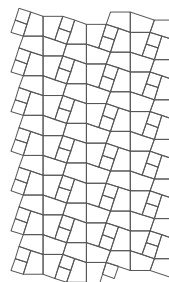

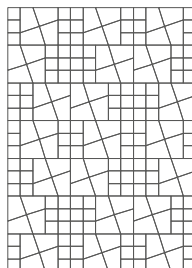

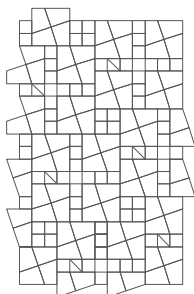

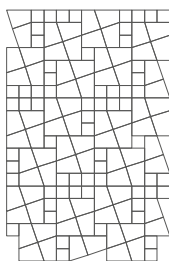

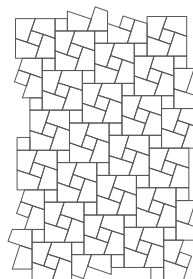

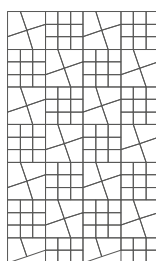

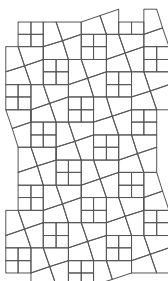

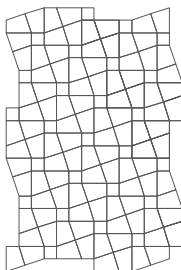

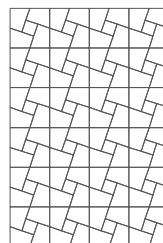

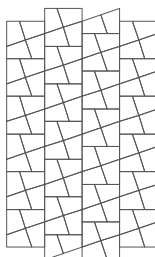

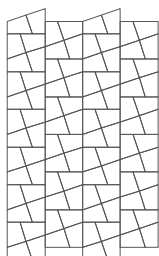

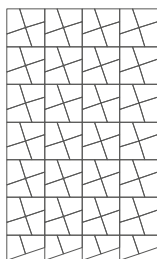

Dimostrazione teorema di Pitagora basata
sulla scomposizione in parti uguali
dei quadrati costruiti sui cateti
e sull'ipotenusa del triangolo rettangolo.

Londra 1864

Henry Perigal

Pythagora's theorem demonstration based on the
dissection in equal parts of the quadrates
built on the cathets and on the hypotenuse
of the right-angled triangle.

London 1864
