

Precious materials enrich the Arcaico

Design Enzo Berti

There is a great flexibility in the definition of ARCAICO collection, a system of tables successfully presented in April 2014, based on a metal structure where massive marble cylinders are hooked. These cylinders act as counterweights to the top (in marble or wood) that seems to be suspended in the space in a burst of dynamic light.

Arcaico is enriched with bases in gold metal, bronze metal and pink metal, and with the Onice Tramoto (*sunset onyx*) top, a precious material that enters for the first time in the company's collections. Decided shades of orange, green and beige, contrasting with the shine of the metals or the statuariness of the onyx, give a dreamlike and captivating visual impact.

Thanks to its conception and structure, it is particularly suitable for Contract. The table concept offers a wide range of personalization: the group of marble or metal bases can be both monochrome and polychrome, and you can choose among various marble essences that nature offer. Bases vary from a minimum of 3 to a maximum of 6, in relation to the top sizes and to personal tastes. The top can be in marble, semiprecious stones or wood, in different finishing and colours.

Arcaico, a unique furnishing item, a “functional sculpture” for the office, the dining or the living room areas.

TECHNICAL DATA

Name: Arcaico

Company: Kreoo

Brief description: Table system based on a metal structure where massive marble or metals cylinders are hooked. These cylinders act as counterweights to the top (in marble, semiprecious stones or wood) that seems to be suspended in the space in a burst of dynamic light.

Materials:

TOP: All marble, semiprecious stones and woods in Kreoo's catalogue

BASES: All marble, semiprecious stones in Kreoo's catalogue, gold metal, brozed metal, pink metal.

Dimensions: Round Ø 160cm, h 74 cm.

Rectangular: 160-200-240 cm x 110 cm x h 74 cm (3 length options)

Mechanism: table system based on a metal structure where massive marble cylinders are hooked
